

A Company of Watts Water Technologies EMEA B.V.

#### Description

MICROFLEX HD-PE Inspection chamber

#### Product specification

The Microflex HD-PE Inspection chamber is used to interconnect UNO, DUO and Quadro pipe systems.

The inspection chamber comprise chamber, lid, stainless steel bolts sealer kit and assembly instructions and has 6 connection points. These connection points have to be cut to size (125,160 or 200).

The chamber enables connections of different pipes and the integration of shut off valves.

Following the assembly instructions one becomes a perfect watertight seal.

The necessary shrink caps are not included and have to be ordered separately. These caps provide a watertight seal of the connection points.

Corrosion and decomposition free

#### Technical specifications

Ø inspection chamber in mm: 810

Height in mm: 770

Weight in kg: 35
